Productive and fun place to work. Be prepared to work and like any other company in the recruitment sector you'll be stressed, overwhelmed and frustrated Managers and Directors are super approachable and probably will be the first ones checking if you're ok. This is such a waste of time, all agencies work the same you get offered a role you do the work, they take the biggest slice of the pay, once it's finished you have no work and no money. See all reviews. What would you say about your employer? Help fellow jobseekers by sharing your unique experience. Write a review. Popular questions all. What would you suggest ASC Connections management do to prevent others from leaving? Find another company. A global manufacturer of CNC machines is recruiting for a field service engineer to join their well established team. With a market presence in every continent, they specialise in the supply, installation, commission and repair of CNC purpose built equipment. They have a highly experienced UK wide team, providing a comprehensive service to customers across a range of manufacturing sectors. All work is planned at least 7 days in advance and jobs are sent through weekly, however urgent breakdowns will get called through so you must be prepared to react to these given the location. Nationwide travel is expected, with occasional overseas travel to the head office in Germany when required, including training. To be successful in this role we're looking for the following career roles or and experience - - Service Engineer, Service Technician, Commissioning Engineer, Field Technician, CNC Engineer - Electrically bias, ideally holding an NVQ level 3 in electrical engineering - Good knowledge of fault finding, electrical and

mechanical repairs - Willingness to travel nationally, and to Ireland and be prepared to stay overnight if required - Clean driving license Standard working hours are 40 per week, general expectancy to arrive on site by am. The business are prepared to be as flexible and supportive as possible, overnight stays and extensive travel is ideally kept to a minimum, but the business requires an individual who is prepared to do both when necessary. In return the company can be equally flexible when needing time off or working around other engagements. Please note, if your application is suitable, one of our consultants will call you within 5 working days. If you have not heard from us within this time, your application has unfortunately been unsuccessful, however, we will keep your details on our talent management system to consider you for future opportunities.
